

Make Your Own Resurrection Eggs

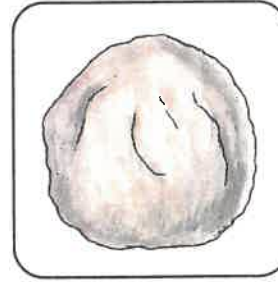

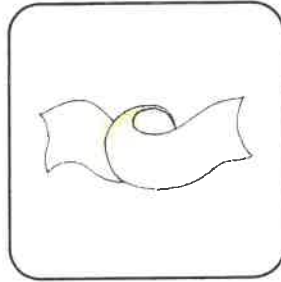

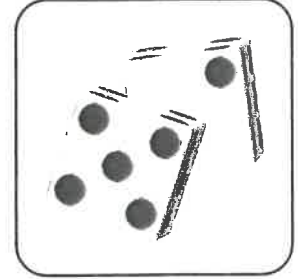

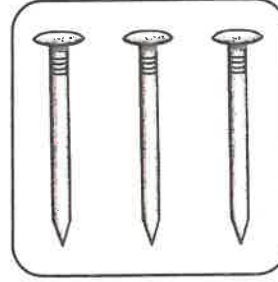

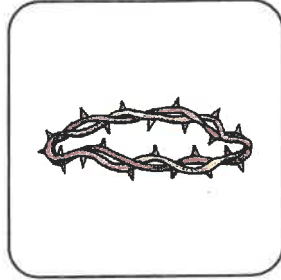

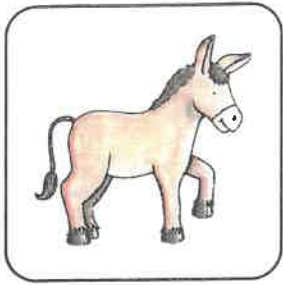

Materials Needed:

- an egg carton for a dozen eggs
- 12 plastic eggs
- Printable of 12 objects (included)
- Printable of Chart (included)
- Scissors
- Sharpie to number the eggs

1. Number the eggs 1-12
2. Cut out the objects and put one inside each egg making sure you follow the order on the chart.
3. Tape the chart to the egg carton.
4. Choose one of the ways below to share the story of Holy Week (or come up with your own!)

How to use Resurrection Eggs

- **Have an egg hunt** – Hide the eggs, and have children find them. Gather around and open them in order, telling (or reading the suggested verses) the resurrection story as you go.
- **Use as an Easter Dinner centerpiece** – Fill a basket in the center of the table with the Resurrection Eggs. After dinner have each person choose an egg (or more). Encourage them to open the eggs and see if they can piece together the story of the Resurrection. Read the suggested verses in order to help them out.
- **Create a special family devotion time** – For the 12 days leading up to Resurrection Sunday, open an egg each morning or night. Read the verse that goes along with it and discuss the story as a family. Choose to open the last egg the night before Easter, or on Easter Sunday. Connect the empty egg to the empty tomb, and how that is the REAL reason we celebrate. Jesus has risen from the dead and made a way for us to be with Him for eternity!!
